THE WORLD'S MOST ADVANCED MARINE LUBRICANTS

START YOUR ENGINES BELRAY.COM

High Performance Lubricants provide benefits for all engines.

For more than 65 years Bel-Ray's high performance marine products have been used in some of the most extreme marine applications from the US Navy to the largest manufacturers of marine engines.

Now Bel-Ray's comprehensive line of High Performance Marine Products are available for consumers. Even better our proven formulas have been upgraded with some of the most advanced additive technology, making them more powerful and ready to serve the new generation of marine engine technology.

Bel-Ray's Marine Line is engineered for superior performance serving every application including 2-Stroke and 4-Stroke outboards, inboards, sterndrive, PWC, and jet drive systems. The line includes engine, oils, gear oils and other service related lubricants for all of your marine lubrication needs.

Bel-Ray's Marine products utilize the most advanced marine additive technology to provide improved performance with increases in horsepower and fuel efficiency while reducing change intervals and extending the service life of your engine.

These products are NMMA certified and meet or exceed industry warranty require-

ments.

As part of our commitment to the environment Bel-Ray has also introduced the first engine oil to carry the new Eco label. Bel-Ray Biodegradable 2-Stroke Engine Oil is a rapidly biodegrading oil manufactured from renewable raw materials that have low aquatic and soil toxicity and still provide maximum wear protection and is TC-W3 certified by the NMMA. Bel-Ray provides environmental protection without compromise to performance.

Bel-Ray marine gear oils combine superior oxidation and corrosion protection with extreme pressure additive technology to protect gears and bearings from shock loading and micro-pitting fatigue even with up to 25% water contamination.

Bel-Ray's Synthetic and Semi-Synthetic Gear Oils are first in the industry with environmentally friendly "antimony free" formulations.

As a division of Calumet Specialty Products Partners, L.P., Bel-Ray is supported with unrivaled resources including state of the art R&D facilities & staff, high speed production operations, and unique refin-

ing capabilities specializing in the production of high quality base oils used in the manufacturing of our lubricants.

Calumet Specialty Products Partners, L.P. is a leading independent producer of high-quality, specialty hydrocarbon products. Products from our refineries in-

clude both naphthenic and paraffinic oils, aliphatic solvents, synthetic lubricants, asphalt, fuels, white mineral oils, waxes, petrolatums and hydrocarbon gels, giving Calumet Specialty Products Partners, L.P. some of the most diverse specialty hydrocarbon capabilities in the world.
